

COVID-19 Vaccine Now Available for Students Age 12+

Schedule Your Appointment at www.LeeHealth.org

- Pfizer vaccine is safe, effective and EUA approved for age 12+
- Vaccinations occur in the vaccine clinic at Gulf Coast Medical Center
- Parental permission is required and parents must be present with their child
- After receiving the vaccine, students will be monitored for 15 minutes
- You do not need to be a patient of Lee Health to be vaccinated in our clinic

Get vaccinated with your child!

If parents have not yet been vaccinated, they are encouraged to make an appointment for themselves at the same time as their child.

Benefits of Getting Vaccinated

- Protect yourself against the coronavirus
- Safely return to the classroom and school sports
- Help to end the coronavirus pandemic in our community
- Protect friends and family from potential coronavirus exposure
- Safely participate in summer activities

Masks are required to enter the hospital.
